

FEMA G265 Instructor Class

January 15-16 2015 for further information contact Teresa Tople at Teresa.Tople@state.sd.us

The purpose of this 2-day course is to prepare the participant to assist with State-delivered emergency management training. It provides a foundation from which participants can develop or enhance their instructional delivery skills within a classroom setting. This course is not designed to teach how to design training. Rather, the focus of this course is how to present an existing lesson plan or training materials.

PREREQUISITE- Take the IS 265 test and bring your certificate with you to the G265 Course in order to get a G265 Certificate
